About FOXEN

FOXEN Engineering Ltd is a newly established, CAC-verified engineering company based in Wuse Zone 5, Abuja. Our founders and technical team have worked together on engineering projects for years, and we deliver mechanical, electrical, plumbing, fire protection and industrial systems as one coordinated team. We work in the FCT and travel to other states when a project requires it.

Dedicated project team

100%

Commitment to quality

Leadership

Nurudeen Abdul Malik, Founder and Managing Director. Mechanical engineer with years of hands-on experience in mechanical engineering and related fields. Graduated with a Second Class Upper degree in Mechanical Engineering from the Federal University of Technology, Minna (FUTMinna).

Credentials and partnerships

CAC verified. Our team has delivered work for federal and state government stakeholders and private clients through private partnerships. Client names are withheld at their request; references are available on request.

What we do

Mechanical & HVAC

Air conditioning, ventilation, chilled water, ductwork, pumps and mechanical piping. Air-conditioning design and installation; VRF/VRV and split systems; Chilled-water systems and chillers; Air handling and fan coil units; Ventilation and extraction.

Electrical engineering

Power distribution, generators, lighting, earthing and control panels. Distribution boards and cabling; Generator and changeover installation; Lighting design and installation; Earthing and lightning protection; Cable containment and trunking.

Plumbing & water

Water supply, drainage, sanitary systems, tanks, pumps and stormwater. Cold and hot water supply; Soil, waste and drainage systems; Sanitary fittings and fixtures; Storage tanks and booster pump sets; Pressure and pumping systems.

Fire protection

Detection, sprinklers, hydrants, hose reels and suppression systems. Fire detection and alarm systems; Sprinkler systems; Fire pumps and hydrants; Hose reels and extinguishers; Suppression systems.

Industrial engineering

Process piping, equipment installation, plant services and maintenance. Process and utility piping; Pump and motor installation; Equipment installation and commissioning; Compressed-air and utility lines; Fabrication and welding supervision.

Design & consultancy

MEP design, drawings, BOQs, supervision and project management. MEP design and calculations; Drawings and specifications; Bills of quantities and cost estimates; Site supervision; Building services condition surveys.

Sectors we serve

Commercial, Industrial, Residential, Healthcare, Hospitality, Education, Construction, Manufacturing.
